Subject: Mv Emma Oldendorff low sulfur fuel in Skagway

Jan,

Pursuant to our most recent conversation regarding the availability of low sulfur diesel fuel in the Port of Skagway.

We have contacted Petro Marine Services in the Port of Skagway, Alaska and have been advised that low sulfur diesel fuel is not available in the Port of Skagway, Alaska as the dock owner will not allow the transfer of fuel from a truck on the dock to the ship due to liability concerns.

Should you have any further questions, please don't hesitate to contact us.

Best regards,
Paul Axelson
